**AS715C AMELIA:** We've added a metal-free, water-resistant tough shoe to our ever-expanding **SOPHIE COLLECTION**. The AS715C AMELIA has a 200J fibre glass composite impact and compression resistant toe cap and a non-metallic midsole for underfoot protection. All eyelets and components are completely metal-free. The shoe is specifically designed for the women's foot with ergonomically shaped comfort EVA footbed. The antistatic construction prevents a build up of natural static energy making them ideal for floorings such as in airports and supermarkets. Durable dual density PU outsole with injected PU midsole for enhanced comfort when on your feet all day.
