

CLIMBER

Art. No. 603013

CE EN ISO 20345:2011 SB E HRO HI CIWRU SRC

Leather thickness 2,5 – 2,7 mm, waterproof and breathable with GORE-TEX® Performance, leg height 23 cm, sole Vibram

Available sizes EU 39 – 47, Extra large sizes EU 48

HAIX® Climate System

HAIX® FP System

RTC with countersunk seams

603013

Upper Material

Waterproof leather, hydrophobic, breathable (5,0 mg/cm²/h), 2.5 – 2.7 mm thick

Inner lining

GORE-TEX® Performance: 4-layer GORE-TEX® laminate, waterproof and breathable. Highly abrasion-resistant lining with fleece midlayer. Optimized-climate comfort for all year seasons and excessive use. Increased chemical protection.

Plastic Insole

dimensionally stable, torsion-proof, avoids punctual pressure (e.g. of stones).

Foot bed

Anatomically formed, exchangeable, washable, very good moisture absorption, dries quickly.

Protective Toe Cap

Anatomically formed and well-padded protective toe cap.

Sole

Stable rubber/PU sole with a robust terrain tread, wear resistant and non-slip traction. The low-weight PU, impact-absorbing wedge in the heel area cushions every step and affords good bending comfort. The manually-applied rubber sidewall gives this sole optimal side stability.

Compliant with EN ISO 20345:2011

HAIX® Climate System

The HAIX® Climate system uses the pumping movement, which permits air circulation with every step – warm air is released and fresh air comes in through the vent holes at the top of the boot.

HAIX® FP System

Leather reinforcement over the heel rounding which protects this flexible and soft inset in the bending area from chafing.

Sun Reflect

Reduces the heating effect of the upper leather by direct sunlight. Sunlight is reflected by the leather, keeping the leather and the feet cooler.

Others

Lacing system with eyelets permitting smooth movement, clamps and hooks, integrated heel bend, no side seams, rubber toe cap.
