ABOUT EUROX

Established in 1985 - Eurox is a trusted designer, manufacturer & supplier of PPE, Workwear & Corporate Wear. Guided by innovation, practical design & personal service.

We're built on transparency, honesty & trust.

From our 150,000 ft² UK distribution facilities, we supply complete clothing solutions, from concept to delivery across sectors including Waste Management, Utilities, Transport & Construction, featuring brands such as AQUA, Trakman, Titan & Phoenix-FR.

We're proud to be a successful supplier to BlueLight Commercial's National Waterproof Clothing Framework, providing UK police forces with durable, compliant & comfortable garments ranging from waterproof jackets & trousers to lightweight & multifunctional options.

At Eurox, we're committed to protecting those who protect us with high-quality workwear - built for performance that you can rely on.

PRODUCT SPECIFICATION & OVERVIEW

- All jackets are built for comfort & durability from a 170gsm polyester jet twill
- Garments meeting EN343:4:4 waterproofing & breathability standards provide reliable protection against wind & rain. These are identified by the EN343:4:4 icon throughout the catalogue
- Selected garments conform to EN20471 class 3 standards, ensuring enhanced visibility & wearer safety in low-light or high-risk environments. These are identified by the EN20471 class 3 icon throughout the catalogue
- Jackets in Lots 1–4 feature two Klickfast™ docking stations on the upper chest for secure attachment of radios, cameras, or other essential equipment
- Outer jackets feature a concealed zip beneath dual stud-fastened storm flaps to prevent water ingress while maintaining easy access & mobility
- The stand-up collar with adjustable shock cord provides protection against wind & rain, improving fit & comfort
- Inner jackets are lightweight & designed to integrate seamlessly with outer layers or worn alone in milder conditions

Designed to work as a complete weather protection system, each jacket & trouser set offers comfort, protection & mobility when worn together.

- Combined protection against rain, wind & cold
- Layered fit allows unrestricted movement over uniforms or body armour
 - Matching fabrics & finishes create a unified, professional look
- Aligned access points ensure easy use of pockets & equipment
 - Enhanced comfort & breathability during extended duties
- Integrated design provides greater durability & coverage than when worn separately

JK135

FRONT

BACK

WATERPROOF & BREATHABLE
Specifies protection against rain
and wind while ensuring
breathability for comfort during
wear.

- Breathable mesh lining & taffeta-lined sleeves ensure all-day comfort, with a detachable microfleece liner providing added warmth in winter
- A concealable, adjustable storm hood is neatly integrated into the collar for protection against harsh weather
- Blue & silver chequered reflective tape enhances visibility & compliance, while fixed stud-fastened epaulettes maintain a professional look
- Adjustable cuffs, draw-cord waist and side zips ensure a secure, flexible fit
- Features multiple practical pockets, including two breast, two lower front, two zip-fastened napoleon & inner patch pockets for essential storage

TR063

FRONT

BACK

EN 343

WATERPROOF & BREATHABLE
Specifies protection against rain
and wind while ensuring
breathability for comfort during
wear.

- Fully lined with soft microfleece to provide warmth, comfort & reliable insulation during extended wear
- Elasticated waistband ensures a secure yet flexible fit, promoting unrestricted movement throughout active duties
- Two side entry pockets offer convenient access to essential items & everyday equipment
- Concealed side leg zip openings beneath hook-&-loop flaps allow easy wear over boots while maintaining a clean, streamlined appearance

JK136

FRONT
